

Since 2006, a European Safety Standard was introduced for the manufacture, structure, and operational procedure of bouncy castles and/or all inflatables that fall within this term.

It is important as a hirer that you are aware the unit you have chosen to hire:

- (a) Fully complies with this standard
- (b) Has a valid safety certificate and
- (c) The hire company is insured
- (d) Is a member of the Irish Inflatables Hirers Federation (IIHF).

“**Electric Party Rentals**” we would like to reassure you that all our units are manufactured and fully comply with EU Standard EN14960-2019. We are insured and we hold a valid safety certificate for all our units.

**Please carefully read all our terms and conditions and our risk position statement. Promoting sensible risk management.**

The I.I.H.F. acknowledge that **all play has risks** and if an inflatable is introduced to enhance the experience of the play then it naturally increases the risk to the users. Play and risk are fundamentally linked and risk at play cannot be avoided. Acceptable risk is recognised as beneficial to development.

“**Company Name**” has taken all possible steps to make your inflatable as safe as possible. It is erected and made ready for you by our trained staff to comply with the operational side of the EN14960-2019. By signing this hire agreement, you understand and agree that while the inflatable increases the risk of injury, we have done all in our power to not eliminate, but to reduce this risk as much as possible. You further understand and agree that avoidance of any injury to users is the sole responsibility of the person signing the agreement. The person signing the agreement further agrees that if they do not wish their children or guests to be exposed to risk including increased risk due to taking part in more robust play associated with inflatables then they should not sign this agreement or rent or use an inflatable.

The person signing this agreement declares when they are signing that they are the person who has the full responsibility to ensure that all the terms and conditions contained herein will be adhered to from the time the inflatable is delivered by “**Company Name**” to the time it is picked up by “**Company Name**”

### **OPERATING INSTRUCTIONS FOR SAFE OPERATION OF INFLATABLE:**

The person or company hiring the inflatable is totally responsible for the safe operation of the inflatable and should ensure the following:

- A. In the event of winds over 18 - 24 mph (29-38km/h) it is the responsibility of the hiree to switch off the inflatable and deflate in a safe manner. Inflatables are extremely dangerous if used above the recommended maximum wind speed including gusts. Always be on the side of caution at all times.
- B. The inflatable has constant supervision by an adult who is of clear mind and not under the influence of alcohol or other mind-altering drugs.
- C. To admit users to the inflatable in a controlled and safe manner.
- D. To restrict the maximum number of users at any one time to the design number for the particular inflatable or if design number is not immediately available or known restrict numbers so as not to dangerously overcrowd the unit using common sense and by erring on the side of caution in this matter. **(As per safety label on the inflatable unit)**
- E. To restrict the maximum height of users at any one time to the design height for the particular inflatable or if design height is not immediately available or known restrict the height to the smallest wall height of the inflatable.
- F To use at least the minimum number of operating personnel or supervisory attendants
- G That users remove sharp or dangerous objects from their person and glasses where practical.
- H To prohibit food, drink, or gum on the unit
- I To prohibit users from hanging or climbing on containing walls
- J To prohibit somersaults or rough play
- K That operators and or attendants watch the activity on the inflatable constantly and use a whistle to get the attention of users
- L That operators and or attendants separate larger, more boisterous users from smaller ones
- M Do not allow anyone to bounce, play or sit on the front safety step as a Child could easily bounce off the inflatable and get hurt.  
The step is there to assist users in getting on or off.
- N Ensure that nobody with any illness or history of back, neck or other joint problems etc is allowed on the inflatable as indeed any Child who is feeling unwell.
- O. No smoking or barbecues near the inflatable.
- P DO NOT ALLOW CHILDREN TO OPERATE THE UNIT!**
- Q Do not allow anyone to be on the unit during inflation or deflation as this is **DANGEROUS.**
- R Ensure that an area of 6 feet (2 metres) around the unit is kept completely clear.
- S The inflatable should not be used if it becomes wet on the jumping area. If no shower cover is fitted and in the event of rain, the unit should not be used.
- T In the event of heavy rain, it is strongly recommended that the inflatable be switched off. Any wetness, including bubbling (which is normal) can be dried later with a towel
- U Under no circumstances should ADULTS use the bouncy castle or unit unless specifically given permission by '**Electric Party Rentals**
- V That users remove their footwear.

**BLOWER:**

In the event that the blower stops working, please ensure all users get off the inflatable immediately. Make sure the blower tube or deflation tube has not come undone or debris is not blocking the air intake of the blower.  
In the event that it overheats, or loses power, switch the blower off at the mains, then switch it back on again 1 or 2 minutes later, it should restart. If it does not, inform us straight away.
